#### **REVIEW OF WATER QUALITY CONTROL PLAN (BASIN PLAN) TRIENNIAL REVIEW PRIORITY LIST**

The Regional Water Quality Control Board (Central Coast Water Board) is beginning the process of reviewing its *Water Quality Control Plan (Basin Plan) Triennial Review Priority List*. This Basin Plan serves as the cornerstone water quality protection policy for the Central Coast. It identifies beneficial uses of surface and ground waters, establishes water quality objectives to protect beneficial uses, and provides an implementation plan to achieve those objectives.

Central Coast Water Board staff has prepared a tentative list of water quality issues or a "Draft 2005 Triennial Review Priority List."

Copies of the proposed Draft 2005 Triennial Review Priority List (including a staff report and draft resolution for adoption) are available on the Internet at:

<http://www.swrcb.ca.gov/~region3/BasinPlan/TriennialReview/2005PublicCommentParticipation.htm>

Please see at the website: "Staff Report for 2005 Triennial Review List." The proposed amendments to the Triennial Review List are also available by request at the office of the Central Coast Water Board; please contact: Carrie Fauset at 805-549-3506.

The public hearing is scheduled as follows:

Date: **July 8, 2005**  
Time: **8:30 A.M.**  
Place: **Conference Room**  
**Regional Water Quality Control Board**  
**895 Aerovista Place**

At the conclusion of the public hearing, the Central Coast Water Board will consider certification of the environmental document and approval of the proposed amendments.

The public comment period will occur from **April 13, 2005 to May 29, 2005**. We would appreciate any comments, preferably in writing, or other evidence, sent in advance to Lou Blanck at the address listed above.

**Your timely submittal will allow staff and the Central Coast Water Board members to consider your comments before taking final action at the meeting to be held on July 8, 2005.**

Copies of the existing Basin Plan and Triennial Review List are located at libraries in major cities throughout the region, at the office of the Central Coast Water Board, and on the Internet at [www.swrcb.ca.gov/~rwqcb3/](http://www.swrcb.ca.gov/~rwqcb3/).

Please review the attached list of water quality issues and provide additions and/or comments by **May 29, 2005**. In general, the issues identified will be addressed as staff resources become available.
